Designed by: Michelle Johnson

Step-by-Step Guide:

1. Die cut two decorative border strips.
2. Adhere 3D clear foam strips along the back of the strip, then cover the backs of the punched holes.
3. Peel off the protective backing and place them onto the layout about 5mm from the top and bottom of the page.
4. Take pink foil and press onto the exposed holes. TOP TIP: Ensure that the coloured side of the foil or shiny side is always facing the ceiling.

5. Print photo onto texture mounting sheet choosing a speciality paper setting or a matte paper setting.
6. Cut a strip of paper 32mm and run the pro glue glider over the back and attach 55mm from the top.
7. Cut another strip of paper 110mm and attach using the pro glue glider at 137mm down the page.
8. Also cut a 10mm strip, turn over and stick 5mm under the main strip as this paper is reversible.
9. Trim the photo to 120mm x 135mm.
10. Peel the backing off and matt onto burgundy bazzill bling leaving a 6mm border all around.
11. Adhere this at an angle onto the page again using the pro glue glider.
12. Place 3D clear square pads, three in a row as shown and peel off the protective backing and add blue glitter. Hold the tube over the clear pads then you won't need a messy tray or sheet of card to pour the excess back into the tube.
13. Rub on the journaling or chosen title with the lolly stick provided.
14. Punch a heart using punch adhesive sheet.
15. Take off the backing sheet and stick onto the t-shirt to bring the page to life. Take off the second layer and press pink foil onto it.
16. Place white card into hearts embossing folder and wind through the Big Shot following the manufacturers instructions to create a heart embossed strip.
17. Trim to the edge of the hearts and stick vertically 15mm from the edge of the page.
18. Add 3D dots to the flower centres and place the tube of micro beads over the top, shake back and forth to cover the dots entirely. TOP TIP: By using these tube glitters and beads its unnecessary to use a messy tray.
19. Cut a piece of Bazzill Burgundy Bling cardstock to cover the large flower on the dye. Also die cut a medium white and blue flower.
20. Attach the white flower to the large burgundy one using a craft dot.
21. Punch a circle from decorative paper and stick onto the top of the flower to embellish the centre.
22. Stick this onto the right hand corner of the page 5mm from the edge and 5mm from the border.
23. Dye cut the tiny flower centre using white card and stick onto the blue flower with a craft dot.
24. Use the eyelet kit to set 2 holes for the ribbon to thread through.
25. Thread ribbon and tie a knot. Trim off any excess leaving about 15mm on each end of ribbon.
26. Stick to her hair to attract attention to the photograph.
27. Finally add gems with tweezers or a craft knife to the page to give it that extra blingy look.
