

Sno Much Fun

Items Required for this Project:

- Stix2 None Stick Crafting Sheet 15" x 18" - S57132
- Stix2 Double Sided Polyester Ultra Sticky Clear Sheets - S56971
- Stix2 3D clear foam pads - S57126
- Stix2 Seed Bee'd and Fine Glitter - Silver - S57080
- Stix2 Shiny Transfer Foil Set - S57110
- Stix2 Craft Dots - 1600 Assorted Permanent Dots - S57051
- Stix2 3D Craft Dots - Permanent on a roll - S57118
- Stix2 Seed Bee'd and Fine Glitter - Blue Set - S57078
- Stix2 Glue Glider Pro with a Disposable Cartridge System - S57128
- Stix2 3D Craft Dots - Permanent on a roll - S57118
- Stix2 Micro Dots - 140mm x 100mm - PERMANENT - S56969
- Stix2 Foam Shapes - NUMBERS - S56979
- Stix2 Foam Shapes - ALPHABET - S56974
- Stix2 Mini craft dots - S57115
- Stix2 Textured Mounting Sheets - S57130
- Computer & printer
- Silver mirror card
- Bazzill Bling white 12" x 12" cardstock
- Bazzill Bling light blue 12" x 12" cardstock
- Bazzill Bling blue 12" x 12" cardstock
- Big Shot die cutting machine
- Sizzix originals snow flake#2 – 655011
- Sizzix Sizzlits Set 4pk - Snowflake Set #3 - 654370
- Sizzix Bigz Boss O Alphabet Dies – 655116
- Crafters Companion pour n store Silver Embossing Powder - CC-PAS-EMB
- Embossing Heat Gun
- 2 small snowflake punches
- General crafting tweezers
- Blue gems
- Craft knife, ruler and cutting mat

MICHELLE JOHNSON.
Designed by: Michelle Johnson

Step-by-Step Guide:

1. Print the photos onto Texture Mounting Sheet and trim to 86mm x 90mm leaving a border of 3mm all round. Add journalling before printing if required.
2. Take off the backing sheet each time and stick onto Bazzill Bling blue.
3. Trim again leaving a 3mm border.
4. Create a triple matt by adhering them onto silver mirror card using the glue glider pro. Again trim to leave a 3mm border.

Continued...

5. Die cut 'sno much fun', from Bazzill Bling Blue and silver mirror card.
6. Stick the letters together slightly off centre creating a title ensuring that you alternate the colours each time as shown.
7. Attach the snowman picture to the page. Place at an angle to add interest to the centre of the page again using the glue glider pro.
8. The top right corner and bottom left corner should measure 93mm from the top and bottom of the page.
9. Stick the other photos in place 5mm from the side of the page also placed at an angle.
10. Add the title as shown. Sticking one letter with the glue glider pro and the next with 3D clear pads. Overlap the letters to add depth to the title.
11. Run the glue glider pro across the back of the letter 'O' before sticking it down. Attach to the page and fill the hole with the silver glitter as shown.
12. Punch a snowflake and stick onto the centre of the letter 'O' , then add a gem to the centre.
13. Die cut the large snowflake out of Double Sided Polyester Ultra Sticky Clear Sheets.
14. Wipe the corner of the page with an anti static pad. Peel the backing off the snowflake shape and press firmly onto the left hand corner. Peel off the second backing sheet and pour silver embossing powder onto the snowflake.
15. Tap off the excess and heat using an embossing heat gun.
16. Add 3D foam letters to add your chosen date to your scrapbook page.
17. Cover with 2 shades of foil to add a frosty look by pressing the foil onto the exposed tacky foam.
18. Add a 3D craft dot to the large snowflake and pour seed beads onto it. Press the beads into the 3D dot and mould to create a circular mound of beads.
19. Tear the top of the page ensuring that you pull the top of the card towards you. Then attach the light blue card to the back using a glue glider pro.
20. Punch some small snowflakes out of mirror card and blue bazzill and attach with mini craft dots.
21. Attach a mix of die cut snowflakes using both shades of blue card randomly on the page.
22. Finally add some gems using micro dots.
